

1.1.1 Become Member

Use Case Description

Become Member

Actor – User, Leader

Goal – For a User to become a Member of a Group

Precondition – Must currently be viewing Group’s website.

Summary

This task allows a User to become a Member of a Group.

Related use cases – N/A

Steps

1. Click “Membership”
2. Fill out Membership Form (if group has one)
3. Click “Become Member”
4. Exit area by clicking on a different navigational tab

Alternatives –

At step 1, user could click on a different navigational tab to exit the Group’s website.

At step 2 and 3, user could click “Cancel”.

At step 3, if a Group requires approval of members and if the “Join Requests” option is enabled (if Group requires a fee or other special requirements for membership), the Leader would receive a notification for a new Member. The Leader can then choose to approve the member or reject the Member.

Postconditions – The User will become a Member of the Group (or alternatively, if the Leader rejects the Member, then the User will not be a Member)
