PHP TEAM

Regular Meeting of Software Developers

Monday, November 30, 2010, 1:30 p.m.

Bauman Engineering Laboratory, Room 205

1. Call to Order—John Sandmeyer, Team Leader

2. Members Attending: All present

3. Leader's Report: John had set up a group github account

4. Team's Report: Colby emailed the group a link to the class github account, Scott requested input for the CSS design, Chaylo discovered that the **join group** use-case should be added to a group page rather than on the user panel, and each team member reported understanding and being somewhat satified with what work was expected of them.

5. Although the 5:00 p.m. deadline on Wednesday was cancelled due to the presentation being moved to Tuesday, Leah decided the group will still meet at 8:00 p.m. Wednesday.

6. Unfinished business:

7. UML diagrams, written documentation for HW6, and presentation assignments

8. New and Continuing business:

   - Team members will complete their agreed upon tasks
   - UML diagrams, presentation, and written documentation for HW6

9. Date of next meeting: **8:00 p.m. December 1, 2010, via Skype**

10. Adjournment
